# IF YOU CAN DREAM IT WE CAN BUILD IT!

With access to 2 water jet tables, a 10 foot sheer and 12 foot brake, we can cut material up to 8 inches thick. We have a fabrication side which can accommodate any project you have in mind. While aluminum is our specialty, we also work with steel and stainless steel. Whether you need buckets, blades, stands, railings, box liners, or other, we have you covered.

**We work on all brands but specialize  
in Cat components.**
